### USING THE GAZETTE

The Virgin Islands Official Gazette is the official newspaper of the Government of the Virgin Islands. It is published weekly on Thursdays. Extraordinary editions are published as and when required.

Closing time for lodging notices is 3 p.m. on Monday in the week prior to publication. Early deadlines apply in cases of public holidays. Please refer to the schedule of deadlines at the back of the Gazette for specific deadlines. Late notices are accepted at the publisher's discretion only.

Notices must be accompanied by payment and written instructions. All dates, proper names, and signatures must be shown clearly, and contact details for the person responsible for the notice must be included.

Notices will be returned unpublished if not submitted in accordance with these requirements.

The *Official Gazette* reserves the right to apply its in-house style, and to reject notices which do not meet its requirements.

**NAVAL ENERGIES**

**Class 7:** Machine tools; Motors and engines (except for land vehicles); Machine coupling and transmission components (except for land vehicles); stand-alone or mobile electrical energy generators; Wind-powered and tidal electricity generators; Turbines for power generation; Alternators for generating energy; Wind turbines; Motors for windmills; Robots (machines); Floating wind turbines, Wind turbines; Water mills; Devices for generating electricity, blades, rotors for wind turbines or for water mills.

**Class 9:** Apparatus and instruments for the computer-assisted design of ships, of wind turbines, of marine current turbines, of equipment, installations or modules for generating energy and of systems for generating electricity; Electrical systems and circuits for the production and distribution of electricity for installations or modules for generating energy and for installations for generating electricity; Acoustic, electronic and electromagnetic apparatus and instruments for installations for generating energy; Scientific (other than for medical purposes), nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; Apparatus and instruments for conducting, distributing, transforming, accumulating, adjusting and controlling electricity; Apparatus for non-medical analysis; Optronic apparatus and instruments, apparatus and instruments for detecting and collecting data, for categorising, checking, recording, interpreting, signaling, simulating, reproduction, processing, transmission or visualising sound or images; Communication and telecommunication apparatus; Calculators, consoles, computers, recorded computer software or programs, software packages, magnetic or computer interfaces, data carriers; Magnetic data carriers; Data processing equipment (augmented reality devices), Data processing equipment and apparatus, Peripheral devices for computers; Electric batteries ; Exercise and training simulators ; Radar apparatus, Sonars; Simulators, namely cabins reproducing the simulated environment, immersive means (cabins, platforms, gangways), means for reproducing the all or some of the functional, environmental, visual and dynamic aspects of premises (moving cabins); Computer software for simulating the handling of platforms ; Computer software reproducing the movements of platforms and the physical environment; Computer software for simulating the environment and equipment used by surface vessels, immersed modules for generating energy, wind turbines, marine current turbines, installations or modules for generating energy and systems for generating electricity taking into account the physical phenomena linked to the environment (electromagnetic propagation, acoustic propagation, thermodynamic propagation, rendition of the visual and acoustic environment); Tools (computer software) for modelling equipment for handling platform installations in the field of propulsion systems, electric factories and the safety of civil installations; On-board equipment for the dynamic control of naval platforms; Computer programs and computer software in the fields of hydrodynamics, fluid mechanics, automatic control engineering and optimisation; Dynamic positioning devices; Wind turbines movement stabilisation devices, marine current turbines movement stabilisation devices, installations or modules for generating energy movement stabilisation devices; Measuring benches or test-benches for laboratory or field testing; Apparatus for converting energy from movements of the sea or from the wind or from the water temperature; Energy collectors; Commutators; Sensors, namely devices and apparatus for capturing information; Signal sensors; Encryption apparatus and instruments; Electric converters.

**Class 11:** Equipment for generating energy; Modules for generating energy ; Installations for generating thermal energy by water temperature, heat exchangers, other than parts of machines ; energy converters using wind, water temperature, swell movement or ocean currents.

**Class 37:** Shipbuilding; Repair and maintenance of wind turbines, marine current turbines, equipment, installations or modules for generating energy, electrical power generators and systems for generating electricity; Installation and commissioning of wind turbines, marine current turbines, equipment, installations or modules for generating energy, electrical power generators and systems for generating electricity; Assembly and maintenance of systems and components mounted on platforms; Assembly and maintenance of wind turbines, marine current turbines, equipment, installations or modules for generating energy, electrical power generators and systems for generating electricity; Installation, repair and maintenance of scientific and electric apparatus and instruments, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, immersed or surface modules for generating energy.

**Class 40:** Energy production services; energy treatment and transformation services ; electrical power generation services from renewable energies ; generating electricity services from wave energy, from wind energy, from tidal energy, from sea temperatures or from solar energy ; rental of energy generating equipment ; information and advisory services relating to energy production ; information and advisory services relating to the generation of electricity from wave energy, from wind energy, from tidal energy or from solar energy; information and advisory services relating to energy production from sea temperatures.

**Class 42:** Engineering, including research and development of new products, for others ; research in the field of use of natural energy and design and development of new products in the aforesaid field, for others; Technical consultancy and System surveying, Conducting technical project studies; design of wind turbines, marine current turbines, equipment, installations or modules for generating energy and systems for generating electricity ; Naval architecture; Scientific and technological services and research, design and development, in particular in the naval, civil and energy fields; Analysis and research in the fields of scientific, nautical, electric, electronic and computer apparatus, and in the naval, civil and energy fields; Engineering evaluations, estimates and research in the field of science and technology; Production, design, development, installation, updating, rental and maintenance of computer software; Computer programming for memory cards, electronic cards, databases or networks; Conversion of computer programs and data, other than physical conversion; conversion of documents from physical to electronic data; Design and development of computer software in the fields of engineering and naval architecture, of computer simulation software and of installations for generating energy; Maintenance of the operational condition of systems for the providing of training to personnel in the naval, nuclear, aeronaval, civil and energy fields; Design, development, updating and maintenance of computer software for aerodynamics, hydrodynamics and optimising multidisciplinary design; Computer programming and use of databases in the field of hydrodynamics; Surveying in the fields of on-board measurement, control laws and digital simulation, the landing and recovery of drones; Inspection of naval or immersed structures, of immersed modules for generating energy, of wind turbines, of marine current turbines, of equipment, installations or modules for generating energy and systems for generating electricity.

In accordance with Section 51 of the Trade Marks Act, 2013 and Rule 19 of the Trade Marks Rules, 2015 any person may, within three months of the publication of the application for registration of the trade mark give notice in duplicate to the registrar indicating opposition to the registration of the Trade Mark to which the application relates.
