USING THE GAZETTE

The Virgin Islands Official Gazette is the official newspaper of the Government of the Virgin Islands. It is published weekly on Thursdays. Extraordinary editions are published as and when required.

Closing time for lodging notices is 12 noon on Monday in the week prior to publication. Early deadlines apply in cases of public holidays. Please refer to the schedule of deadlines at the back of the Gazette for specific deadlines. Late notices are accepted at the publisher's discretion only.

Notices must be accompanied by payment and written instructions. All dates, proper names, and signatures must be shown clearly, and contact details for the person responsible for the notice must be included.

Notices will be returned unpublished if not submitted in accordance with these requirements.

The *Official Gazette* reserves the right to apply its in-house style, and to reject notices which do not meet its requirements.

Kindly address notices and other correspondence to:

17265 Hewlett Packard Enterprise Development LP has applied for Registration of (1) Trade Mark in respect of ELEMENT Logo in the following classes:

ELEMENT Logo

Class 9: Scientific, photographic, cinematographic, optical and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; calculating machines, data processing equipment, computers; computer software; house mark for computer hardware and software; data processing apparatus; computers; computer hardware; computer servers; network servers; Internet servers; computer networking and communications hardware; computer network hubs, routers, controllers, switches and wireless access points; computer storage hardware; computer storage servers; computer storage area network (SAN) servers; computer network-attached storage (NAS) hardware; computer and communications hardware for storage area networks; disk backup hardware; disk drives; disk drive arrays and enclosures; redundant array of independent disks (RAID) controllers; host bus adapters; data storage systems comprising computer hardware, computer peripherals and operating system software; integrated IT systems comprising converged computer, storage and networking hardware and software; modular IT systems; computer peripherals; digital signage; magnetic tape units for computers; blank tapes for storage of computer data; memory chips; semiconductors, printed circuit boards, integrated circuits and electronic components; computer software; computer operating systems; computer software and firmware for operating computer hardware and peripherals; server software; network software; cloud software; database, data center and data warehouse software; storage software; virtualization software; computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices; software for computer network operation, management, automation and virtualization; computer software for software-defined networking; local area network (LAN) operating software; wide area network (WAN) operating software; computer software for connecting disparate computer systems, servers and storage devices; software for cloud infrastructure management and automation; computer software used for running cloud computing based applications; cloud computer software for use in enterprise applications, database management, and electronic storage of data; computer software for monitoring cloud, web and application performance; computer software for information technology (IT) management, IT infrastructure management, remote IT infrastructure management, IT asset management and inventory, IT process automation, IT device lifecycle management, IT security, IT reporting and forecasting, IT infrastructure fault and performance monitoring, and IT service desk and help desk software; computer software for data protection and data security; computer software for providing security for computers, networks and electronic communications; application and network security software; computer software for monitoring computer network access and activity; computer software for assessing application security; data and document encryption and decryption software; cryptography software; computer user authentication software; software for information security compliance monitoring, reporting and analytics; IT security intelligence and risk management software; data backup, recovery and archiving software; computer software for data deduplication; database management software; computer software used to read and evaluate content located on global computer networks, databases and/or networks; computer software for application and database integration; search software; computer search engine software; software for searching databases; computer software for creating searchable databases of information and data; computer data warehouse operation and automation software; data center operation and automation software; computer software for data transmission, storage, processing and reproduction; computer software for accessing, querying and analyzing information stored in

databases and data warehouses; information and knowledge management software; business intelligence software; computer software that provides real-time, integrated business management intelligence by combining information from various databases; business and big data analytics software; computer software that automates the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; business process insight software; customer relationship management (CRM) software; enterprise resource and risk management software; project management software; records management software; e-commerce software; software development and deployment tools; software development tools for the creation of mobile Internet applications and client interfaces; application testing and delivery software; application and device lifecycle management software; software-defined infrastructure (SDS) software; computer software that provides web-based access to applications and services through a web operating system or portal interface; software to automate and manage utility industry services, operations and billing; software for managing software licenses.

Class 16: Printed matter; instructional and teaching material (except apparatus); printed matter in the field of computers and information technology; brochures about technological developments, printed reference guides, technical bulletins, data sheets and printed product catalogs in the field of computers and information technology; product operating and service guides for computers and computer peripherals.

Class 35: Advertising; business management; business administration; office functions; business management consulting services; business consulting services in the field of information technology (IT); business consultation services in the field of business process improvement and outsourcing; business consultation services in the field of enterprise architecture; IT outsourcing services and employment staffing for information technology projects; business process outsourcing; IT strategic planning services; IT asset management services; compilation and systemization of information into computer databases; database management services; online retail store services and ordering services featuring computer hardware, software and peripherals; business services, namely, assisting others in the negotiation and development of business partnerships and business alliances; marketing and promotional program services in the field of information and computer technology; customer relationship management services; electronic commerce services; taxonomy services, namely, classification and organization of data for records management purposes; providing a website featuring an online marketplace for sellers and buyers of computer and IT goods and services; business knowledge management services; business data analysis.

Class 36: Insurance; financial affairs; monetary affairs; purchase financing and lease financing services; processing, management and administration of employee health and welfare benefit plans; providing credit card transaction processing services for others; providing insurance claim processing services for others; financial analysis and consultation services for the organization and administration of banking and financial operations; financial asset management; billing services.

Class 37: Building construction; repair; installation services; installation, maintenance and repair of computers and computer, networking and telecommunications hardware.

Class 38: Telecommunications; telecommunications services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; information transmission via electronic communications networks; providing secure real time electronic communication over a computer network; providing virtual private network services, namely, private and secure electronic communications over a private or public computer network; consulting in the field of communications and telecommunications; providing online chat rooms, bulletin boards and forums for transmission of messages among users in the fields of computers, software, information technology and general interest; streaming of audio and video material on the Internet; voice over Internet protocol (VOIP) services; file sharing services, namely, electronic transmission of data via global computer networks.

Class 41: Education; providing of training; educational and training services, namely, conducting classes, workshops, seminars and conferences in the field of computers, software, electronic commerce and information technology; online journals, namely, blogs featuring information in the fields of computers, software, electronic commerce and information technology.

Class 42: Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; house mark for computer services,

software services, cloud services and information technology services; computer services; computer systems analysis, planning, integration and design; integration of computer systems and software; integration of computer systems and networks; computer system administration for others; rental and leasing of computer hardware and computer peripherals; computer consulting services; advice on designing, selecting, and using computer hardware and systems; computer software consultancy; consulting services for others in the selection, implementation and use of computer software; consulting services in the field of software as a service; Internet consulting services; information technology (IT) consulting services; consulting in the field of IT and applications transformation, integration, modernization, migration, design, development, implementation, testing, optimization, operation and management; consulting in the field of cloud computing and big data; consulting in the field of cloud infrastructure; consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of Internet technology and services; consulting in the field of information security, governance and compliance; consulting in the field of computer and information security and IT risk management; consulting in the field of IT mobility and workplace services; consulting in the field of unified communications hardware and software; consulting with respect to the IT aspects of business processes; consulting in the field of IT solutions for customer relationship management, finance and administration, human resources, payroll and document processing; consulting in the field of application delivery management; consulting in the field of marketing optimization; consulting in the field of converged IT systems; consulting in fields of IT converged and hyper-converged IT infrastructure; consulting in the field of utility industry services, operations and billing; consulting in the field of environmental and energy efficiency; scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; technical consulting services in the field of datacenter architecture; providing temporary use of online non-downloadable middleware for providing an interface between software applications and operating systems; providing temporary use of on-line non-downloadable cloud computing software for use in database management and electronic storage of data; computer hardware and software design and development; computer programming services; developing driver and operating system software; software application development, modernization and cloud integration; software installation, maintenance and update services; testing the operation and functionality of computers, networks and software; business technology software development and consultation services; computer programming services for others in the field of software configuration management; computer software development in the field of mobile applications; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; technical support services; service desk, help desk and troubleshooting services for IT infrastructure, computer hardware, computer software, computer peripherals and computer networks; technical support services, namely, troubleshooting of computer software problems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technical support services, namely, migration of datacenter, server and database applications; technical support services, namely, monitoring of computers, network systems, servers and web and database applications, and notification of related events and alerts; technical support services, namely remote real-time computer and network monitoring services; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration, and management of public and private cloud computing IT and application systems; information technology (IT) services; providing website hosting services, website development and customized online web pages for others; cloud computing services; cloud hosting provider services; hosting software applications for others; cloud hosting of electronic databases; web, cloud and computer infrastructure hosting services; providing servers of variable capacity to others; rental of computing and data storage facilities of variable capacity to third parties; infrastructure-as-a-service (IaaS) services, namely, providing computer hardware, computer software, computer peripherals to others on a subscription or pay-per-use basis; client virtualization services; integration of private and public cloud computing environments; remote and on-site management of information technology (IT) systems and software applications for others; cloud computing featuring software for use in database management; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; management of data centers, IT security, cloud computing, workplace technology, computer networks, unified communications and enterprise IT services for others; database services; data center and data warehouse services; database development services; data mining services; data backup and data restoration services; data migration services; data encryption and decryption services; cloud computing featuring software for use in database management and data warehousing; electronic data storage; electronic storage of digital content, namely, images, text, video and audio data; software-as-a-service (SaaS) service; application service provider (ASP) services; platform-as-a-service (PaaS) services; infrastructure-as-a-service (IaaS) services; temporary use of non-downloadable software; temporary use of non-downloadable software for computer and network operation, management, automation, virtualization, configuration, provisioning,

deployment, and control; temporary use of non-downloadable software for information technology (IT) management, IT infrastructure management, remote IT infrastructure management, IT asset management and inventory, IT process automation, IT device lifecycle management, IT security, IT reporting and forecasting, IT infrastructure fault and performance monitoring, and IT service desk and help desk functions; temporary use of non-downloadable software for data protection, data security, and computer application and network security; temporary use of non-downloadable software for information security regulatory compliance; temporary use of non-downloadable software for monitoring computer network access and activity; temporary use of non-downloadable software for data encryption and decryption, cryptography, computer user authentication, and information security compliance monitoring, reporting and analytics; temporary use of non-downloadable software for data backup, recovery, archiving and deduplication; temporary use of non-downloadable software for cloud infrastructure management and automation; temporary use of non-downloadable software for cloud, web and application performance monitoring; temporary use of non-downloadable software for database and database management, data warehouse operation and automation, data center operation and automation, application and database integration, data transmission, storage, processing and reproduction, and for accessing, querying and analyzing information stored in databases and data warehouses; temporary use of non-downloadable software for business intelligence, business process insight, data analytics, information management, knowledge management, customer relationship management, and enterprise resource and risk management; temporary use of non-downloadable software for storing, managing, tracking, and analyzing business data; temporary use of non-downloadable search engine software and software for project and records management; temporary use of non-downloadable software for software development, deployment, testing, delivery and application lifecycle management; temporary use of non-downloadable software for converged IT systems; temporary use of non-downloadable software-defined infrastructure (SDS) software; temporary use of non-downloadable software in fields of converged and hyper-converged IT infrastructure; software as a service services, namely, hosting cloud and datacenter infrastructure software for use by others for use in database management and application development; temporary use of non-downloadable software for automating and managing utility industry services, operations and billing; temporary use of non-downloadable software for managing software licenses.

In accordance with Rule 19 and section 51 of the Trade Marks Act, 2013 any person may, within three months of the publication of the application for registration of the trade mark give notice in duplicate to the registrar indicating opposition to the registration of the Trade Mark to which the application relates.

**PUBLICATION OF APPLICATION OF TRADE MARK PURSUANT TO SECTION 48 OF THE
TRADE MARKS ACT, 2013**

App. No. 0067

17266 Hewlett-Packard Development Company, L.P. has applied for Registration of (1) Trade Mark in respect of HPE and Design in the following classes:

HPE and Design

Class 09: Scientific, photographic, cinematographic, optical and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; calculating machines, data processing equipment, computers; computer software; house mark for computer hardware and software; data processing apparatus; computers; computer hardware; computer servers; network servers; Internet servers; computer networking and communications hardware; computer network hubs, routers, controllers, switches and wireless access points; computer storage hardware; computer storage servers; computer storage area network (SAN) servers; computer network-attached storage (NAS) hardware; computer and communications hardware for storage area networks; disk backup hardware; disk drives; disk drive arrays and enclosures; redundant array of independent disks (RAID) controllers; host bus adapters; data storage systems comprising computer hardware, computer peripherals and operating system software; integrated IT systems comprising converged computer, storage and networking hardware and software; modular IT systems; computer peripherals; digital signage; magnetic tape units for computers; blank tapes for storage of computer data; memory chips; semiconductors, printed circuit boards, integrated circuits and electronic components; computer software; computer operating systems; computer software and firmware for operating computer hardware and peripherals; server software; network software; cloud software; database, data center and data warehouse software; storage software; virtualization software; computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices; software for computer network operation, management, automation and virtualization; computer software for software-defined networking; local area network (LAN) operating software; wide area network (WAN) operating software; computer software for connecting disparate computer systems, servers and storage devices; software for cloud infrastructure management and automation; computer software used for running cloud computing based applications; cloud computer software for use in enterprise applications, database management, and electronic storage of data; computer software for monitoring cloud, web and application performance; computer software for information technology (IT) management, IT infrastructure management, remote IT infrastructure management, IT asset management and inventory, IT process automation, IT device lifecycle management, IT security, IT reporting and forecasting, IT infrastructure fault and performance monitoring, and IT service desk and help desk software; computer software for data protection and data security; computer software for providing security for computers, networks and electronic communications; application and network security software; computer software for monitoring computer network access and activity; computer software for assessing application security; data and document encryption and decryption software; cryptography software; computer user authentication software; software for information security compliance monitoring, reporting and analytics; IT security intelligence and risk management software; data backup, recovery and archiving software; computer software for data deduplication; database management software; computer software used to read and

evaluate content located on global computer networks, databases and/or networks; computer software for application and database integration; search software; computer search engine software; software for searching databases; computer software for creating searchable databases of information and data; computer data warehouse operation and automation software; data center operation and automation software; computer software for data transmission, storage, processing and reproduction; computer software for accessing, querying and analyzing information stored in databases and data warehouses; information and knowledge management software; business intelligence software; computer software that provides real-time, integrated business management intelligence by combining information from various databases; business and big data analytics software; computer software that automates the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; business process insight software; customer relationship management (CRM) software; enterprise resource and risk management software; project management software; records management software; e-commerce software; software development and deployment tools; software development tools for the creation of mobile Internet applications and client interfaces; application testing and delivery software; application and device lifecycle management software; software-defined infrastructure (SDS) software; computer software that provides web-based access to applications and services through a web operating system or portal interface; software to automate and manage utility industry services, operations and billing; software for managing software licenses.

Class 35: Advertising; business management; business administration; office functions; business management consulting services; business consulting services in the field of information technology (IT); business consultation services in the field of business process improvement and outsourcing; business consultation services in the field of enterprise architecture; IT outsourcing services and employment staffing for information technology projects; business process outsourcing; IT strategic planning services; IT asset management services; compilation and systemization of information into computer databases; database management services; online retail store services and ordering services featuring computer hardware, software and peripherals; business services, namely, assisting others in the negotiation and development of business partnerships and business alliances; marketing and promotional program services in the field of information and computer technology; customer relationship management services; electronic commerce services; taxonomy services, namely, classification and organization of data for records management purposes; providing a website featuring an online marketplace for sellers and buyers of computer and IT goods and services; business knowledge management services; business data analysis.

Class 36: Insurance; financial affairs; monetary affairs; purchase financing and lease financing services; processing, management and administration of employee health and welfare benefit plans; providing credit card transaction processing services for others; providing insurance claim processing services for others; financial analysis and consultation services for the organization and administration of banking and financial operations; financial asset management; billing services.

Class 37: Building construction; repair; installation services; installation, maintenance and repair of computers and computer, networking and telecommunications hardware.

Class 38: Telecommunications; telecommunications services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications networks, wireless communication networks, and the Internet; information transmission via electronic communications networks; providing secure real time electronic communication over a computer network; providing virtual private network services, namely, private and secure electronic communications over a private or public computer network; consulting in the field of communications and telecommunications; providing online chat rooms, bulletin boards and forums for transmission of messages among users in the fields of computers, software, information technology and general interest; streaming of audio and video material on the Internet; voice over Internet protocol (VOIP) services; file sharing services, namely, electronic transmission of data via global computer networks.

Class 42: Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; house mark for computer services, software services, cloud services and information technology services; computer services; computer systems analysis, planning, integration and design; integration of computer systems and software; integration of computer systems and networks; computer system administration for others; rental and leasing of computer hardware and computer peripherals; computer consulting services; advice on designing, selecting, and using computer hardware and systems; computer software consultancy; consulting services for others in the selection, implementation and use of computer software; consulting services in the field of software as a service; Internet consulting services;

information technology (IT) consulting services; consulting in the field of IT and applications transformation, integration, modernization, migration, design, development, implementation, testing, optimization, operation and management; consulting in the field of cloud computing and big data; consulting in the field of cloud infrastructure; consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of Internet technology and services; consulting in the field of information security, governance and compliance; consulting in the field of computer and information security and IT risk management; consulting in the field of IT mobility and workplace services; consulting in the field of unified communications hardware and software; consulting with respect to the IT aspects of business processes; consulting in the field of IT solutions for customer relationship management, finance and administration, human resources, payroll and document processing; consulting in the field of application delivery management; consulting in the field of marketing optimization; consulting in the field of converged IT systems; consulting in fields of IT converged and hyper-converged IT infrastructure; consulting in the field of utility industry services, operations and billing; consulting in the field of environmental and energy efficiency; scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; technical consulting services in the field of datacenter architecture; providing temporary use of online non-downloadable middleware for providing an interface between software applications and operating systems; providing temporary use of on-line non-downloadable cloud computing software for use in database management and electronic storage of data; computer hardware and software design and development; computer programming services; developing driver and operating system software; software application development, modernization and cloud integration; software installation, maintenance and update services; testing the operation and functionality of computers, networks and software; business technology software development and consultation services; computer programming services for others in the field of software configuration management; computer software development in the field of mobile applications; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; technical support services; service desk, help desk and troubleshooting services for IT infrastructure, computer hardware, computer software, computer peripherals and computer networks; technical support services, namely, troubleshooting of computer software problems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technical support services, namely, migration of datacenter, server and database applications; technical support services, namely, monitoring of computers, network systems, servers and web and database applications, and notification of related events and alerts; technical support services, namely remote real-time computer and network monitoring services; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration, and management of public and private cloud computing IT and application systems; information technology (IT) services; providing website hosting services, website development and customized online web pages for others; cloud computing services; cloud hosting provider services; hosting software applications for others; cloud hosting of electronic databases; web, cloud and computer infrastructure hosting services; providing servers of variable capacity to others; rental of computing and data storage facilities of variable capacity to third parties; infrastructure-as-a-service (IaaS) services, namely, providing computer hardware, computer software, computer peripherals to others on a subscription or pay-per-use basis; client virtualization services; integration of private and public cloud computing environments; remote and on-site management of information technology (IT) systems and software applications for others; cloud computing featuring software for use in database management; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; management of data centers, IT security, cloud computing, workplace technology, computer networks, unified communications and enterprise IT services for others; database services; data center and data warehouse services; database development services; data mining services; data backup and data restoration services; data migration services; data encryption and decryption services; cloud computing featuring software for use in database management and data warehousing; electronic data storage; electronic storage of digital content, namely, images, text, video and audio data; software-as-a-service (SaaS) service; application service provider (ASP) services; platform-as-a-service (PaaS) services; infrastructure-as-a-service (IaaS) services; temporary use of non-downloadable software; temporary use of non-downloadable software for computer and network operation, management, automation, virtualization, configuration, provisioning, deployment, and control; temporary use of non-downloadable software for information technology (IT) management, IT infrastructure management, remote IT infrastructure management, IT asset management and inventory, IT process automation, IT device lifecycle management, IT security, IT reporting and forecasting, IT infrastructure fault and performance monitoring, and IT service desk and help desk functions; temporary use of non-downloadable software for data protection, data security, and computer application and network security; temporary use of non-downloadable software for information security regulatory compliance; temporary use of non-

downloadable software for monitoring computer network access and activity; temporary use of non-downloadable software for data encryption and decryption, cryptography, computer user authentication, and information security compliance monitoring, reporting and analytics; temporary use of non-downloadable software for data backup, recovery, archiving and deduplication; temporary use of non-downloadable software for cloud infrastructure management and automation; temporary use of non-downloadable software for cloud, web and application performance monitoring; temporary use of non-downloadable software for database and database management, data warehouse operation and automation, data center operation and automation, application and database integration, data transmission, storage, processing and reproduction, and for accessing, querying and analyzing information stored in databases and data warehouses; temporary use of non-downloadable software for business intelligence, business process insight, data analytics, information management, knowledge management, customer relationship management, and enterprise resource and risk management; temporary use of non-downloadable software for storing, managing, tracking, and analyzing business data; temporary use of non-downloadable search engine software and software for project and records management; temporary use of non-downloadable software for software development, deployment, testing, delivery and application lifecycle management; temporary use of non-downloadable software for converged IT systems; temporary use of non-downloadable software-defined infrastructure (SDS) software; temporary use of non-downloadable software in fields of converged and hyper-converged IT infrastructure; software as a service services, namely, hosting cloud and datacenter infrastructure software for use by others for use in database management and application development; temporary use of non-downloadable software for automating and managing utility industry services, operations and billing; temporary use of non-downloadable software for managing software licenses.

In accordance with Rule 19 and section 51 of the Trade Marks Act, 2013 any person may, within three months of the publication of the application for registration of the trade mark give notice in duplicate to the registrar indicating opposition to the registration of the Trade Mark to which the application relates.

App. No. 0068

17267 Virgin Enterprises Limited has applied for Registration of (1) Trade Mark in respect of the following classes:

VIRGIN VOYAGES (Word mark)

Class 39: Transport; packaging and storage of goods; travel arrangement; arranging and organization of cruises; cruise ship transport services, featuring the provision of magnetically encoded and bar coded card to guests on the applicant's cruise ships for personal identification, room access, and conducting financial transactions; travel, excursion and cruise arrangement; reservation and sale of tickets for cruises; information, advisory and consultancy services relating to the aforesaid.

In accordance with Rule 19 and section 51 of the Trade Marks Act, 2013 any person may, within three months of the publication of the application for registration of the trade mark give notice in duplicate to the registrar indicating opposition to the registration of the Trade Mark to which the application relates.

App. No. 0070

17269 Lenovo (Beijing) Limited has applied for Registration of (1) Trade Mark in respect of the following classes:

LENOVO (Word mark)

Class 09: Batteries; battery chargers; battery packs; photographic and digital cameras; computer hardware; computer peripheral equipment; computers; computer servers; desktop computers; laptop computers; notebook computers; tablet computers; mobile personal computers; computer keyboards; computer mice; computer monitors; computer displays; computer game software and programs; computer storage apparatus; routers; blank and encoded integrated circuits and circuit cards; electronic information storage server systems for use in enterprise storage application, network electronic storage, network attached storage and storage area networks, comprised of computer hardware, computer peripherals, and operating system software; handheld, mobile and wearable digital electronic devices, capable of providing access to the internet, for the sending and receiving of telephone calls, electronic mail and other data and digital media, including mobile telephones, smart phones, smart watches, smart watch phones and accessories therefor; modems; CD-ROMs; compact disc recorders and players; power adapters; ink jet printers; printers for use with computers; protective covers for laptop computers and tablet computers; scanners for use with data processing equipment and computers; televisions, including smart TV's and accessories in the nature of set-top boxes, gamepads, 3D glasses and remote controls all for use with televisions; apparatus for recording, transmission and/or reproduction of sounds, images or other data; apparatus, instruments and materials for transmitting and/or receiving and/or recording sound and/or images; audio components and accessories; carrying cases, sacks and bags, all for use with computers and portable handheld digital electronic devices; computer hardware and software for the reproduction, processing and streaming of audio, video and multimedia content; computer hardware and software for controlling the operation of audio and video devices and for viewing, searching and/or playing audio, video, television, movies, photographs and other digital images and other multimedia content; earphones; headphones; built-in wireless audio and video receivers and electronic docking stations for use with electronic book readers, tablet computers, MP3 players, MP4 players, mobile phones and smart phones; portable listening devices, namely, CD players, digital and analog cassette decks, digital recorder and playback equipment for personal use; single crystal silicon in the form of wafers, chips and unformed for use for scientific purposes and semiconductor use;

integrated circuits; computer communications software for connecting computer network users and global computer networks; computer communications software to allow customers to access account Information and transact business; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer game software; computer graphics software; computer software for graphics arts, animation and manipulation of images; computer screen saver software; computer search engine software; computer software for use in database management, for use as a spreadsheet, for word processing, for accounting, for business development, for customer

service in a wide variety of fields that may be downloaded from a global computer network; computer software development tools; computer software for accessing information directories that may be downloaded from the global computer network; computer software for application and database integration; computer system integration; computer software for creating searchable databases of information and data; computer software for the collection, editing, organizing, modifying, book marking, transmission storage and sharing of data and information; computer software for communicating with users of hand-held computers; computer software that assists computers in deploying parallel applications and performing parallel computations; computer software to automate data warehousing; computer software to control and improve computer and audio equipment sound quality; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; computer software, namely, an application allowing sales and field service employees to update and receive data stored in an enterprise's computer databases in real time, using a mobile device, with full telephony integration with the telephone and/or software features of the mobile device; computer telephony software; computer software for use with a global positioning system (GPS); computer application software for mobile phones, portable media players and handheld computers, namely, software for use in voice recognition; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video and other multimedia content, electronic publications and electronic games; computer software for use in recording, organizing, transmitting, manipulating and reviewing text, data, audio files, video files and electronic games in connection with computers, televisions, television set top boxes, audio players, video players, media players, telephones and handheld digital electronic devices; computer software for instant messaging, sending and receiving emails and contact information, schedule sharing, content sharing, playing, sharing and managing multimedia files, recording, organizing, transmitting, manipulating and reviewing text, audio files, video files and computer game programs in connection with televisions, computers, music players, video players, media players and mobile phones; computer software and hardware for managing networking devices and computers; computer software and hardware for the management, control and networking of servers; computer software for use with computer servers, data storage devices and computer memory devices; operating systems software; computer software for systems administration; software for managing the network configurations of a network entity based on the location of a computational entity in the network; computer software for performing automatic communications switching in computer networks; network interface modules for servers, switch modules, transceivers and computer accessories; software used in a networked computer server environment to avoid downtimes and maintain the integrity of the networked computer and switching/routing devices so as to ensure the robustness and performance of the networked system by automating the configuration of components in the networked computer server environment; computer hardware and software for controlling the operation of or execution of programs and networks for server systems and workstations; computer switches that enable enhanced input/output (I/O) for an entire rack of computer servers; computer switches comprised of hardware and software and capable of facilitating or enabling virtual servers and virtual computers through software or hardware design; electrical and electronic connectors, couplers, wires, cables, chargers, docks, docking stations, interfaces and adapters for use with all the aforesaid goods; portable digital electronic devices and software related thereto; software for telecommunication and communication via local or global communications networks, including the internet, intranets, extranets, television, mobile communication, cellular and satellite networks; user manuals in electronically readable, machine readable or computer readable form for use with and sold as a unit with all the aforementioned goods.

Class 14: Watches; watch straps; watch bands; timepieces; clocks; parts for watches, clocks and horological and chronometric instruments; watches enabled for wireless communications with electronic terminals such as smart phones, tablet computers, PDAs and computers; cases for watches, clocks and horological and chronometric instruments; bracelets of jewelry incorporating functions of watches, speed sensors, pace counters, measurements of calorie consumption, distances, momentum, heartbeat measuring monitors, built-in pedometers; watch cases; watch glasses; parts and fittings for all the aforesaid goods.

Class 18: Back packs, ruck sacks, bags, cases, belts, key fobs, key cases, luggage tags and coasters, mobile telephone cases and mobile telephone holders all of leather or imitation leather.

Class 35: Online retail store services provided via a global computer network featuring computer hardware, computer software, computer peripherals, consumer electronics, telecommunications apparatus, mobile phones, handheld and mobile digital electronic devices, accessories, peripherals and carrying cases for such devices and demonstration of products relating thereto; retail store services featuring computer hardware, computer software, computer peripherals, consumer electronics, telecommunications apparatus, mobile phones, handheld and mobile digital electronic devices, accessories, peripherals and carrying cases for such devices and demonstration of products relating thereto; computerized data storage and retrieval services for digital text, data, image, audio and video works.

Class 36: Financial services, including but not limited to, credit services related to the acquisition of goods; extension of retail credit services for the purchase of computers, consumer electronics and related accessories; financing services; lease-purchase financing services; payment services; providing and underwriting warranty and extended warranty contracts.

Class 37: Maintenance, installation and repair of computer hardware, computer peripherals, consumer electronic devices, electric appliances, office machines as well as telephonic and photographic equipment and apparatus.

Class 38: Communication and telecommunication services; communication by computer terminals; computer aided transmission of messages and images; providing telecommunication connections to a global computer network; electronic transmission of streamed and downloadable audio and video files via computer and other communications networks; provision of connectivity services and access to electronic communications networks, for transmission or reception of audio, video or multimedia content; provision of telecommunications connections to electronic communication networks for transmission or reception of audio, video or multimedia content; provision of telecommunications access and links to computer databases and the internet; electronic transmission of computer software for smart phones, mobile phones and handheld electronic devices via the internet and other computer and electronic communication networks; information, advisory and consultancy services relating to all the aforesaid.

Class 41: Education services, providing of training, instruction and entertainment relating to computers, computer software, multimedia products, interactive products and online services, telecommunication apparatus, mobile phones, handheld and mobile digital electronic devices; workshops, conferences and seminars in the field of computers, computer software, online services, information technology, website design and consumer electronics; arranging professional workshop and training courses; computer education training services; arranging and conducting of commercial, trade and business conferences; arranging and conducting of exhibitions, workshops, seminars and video conferences; providing electronic publications for browsing and downloading over computer networks, namely, books, pamphlets, brochures, newsletters, journals and magazines relating to computer hardware, computer software, mobile phones, smart phones, handheld and mobile electronic devices.

Class 42: Computer consultation services; computer hardware and software design, editing, updating, testing, research and advisory services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; computer software design; computer system design; computer system analysis; planning, designing, implementing and developing computer networks for others; design, installation, interconnection, testing and maintenance of computer hardware and computer software for use in network computing; computer system and computer network integration; designing architectural servers comprised of computer hardware, computer software, semiconductors and electronic devices and creating frameworks for designing, developing, managing and delivering computer hardware, computer software, semiconductors and electronic devices; installation and maintenance of computer software; development and maintenance of computing network software for others; recovery of computer data; updating computer software for others; computer and consumer electronic diagnostic services; computer programming services; scientific and technological services in the fields of computer hardware, computer software, computer peripherals, portable and/or electronic devices, communications and information technology and research and design relating thereto; providing consulting services and technical support services, namely, troubleshooting support for computers, computer hardware, computer peripherals, servers, network equipment, computer software and consumer electronic devices, including handheld mobile digital electronic devices; computer consultation services for determining the compatibility of computer hardware and computer software; computer consultation services for computer hardware and computer software for

use in the field of heat exchangers and thermal management; technological consultation services in the field of design, selection, implementation and use of heat exchangers and thermal management systems; computer services, namely, creating an online community for registered users to participate in discussions, share recommendations, get feedback from their peers, from virtual communities and engage in social networking; design, development, maintenance and management of application software for mobile phones, computers, TVs and consumer audio and visual electronics; maintenance, repair and updating of computer operating system software.

In accordance with Rule 19 and section 51 of the Trade Marks Act, 2013 any person may, within three months of the publication of the application for registration of the trade mark give notice in duplicate to the registrar indicating opposition to the registration of the Trade Mark to which the application relates.

17285 ThyssenKrupp AG has applied for Registration of (1) Trade Mark in respect of the following classes:

thyssenkrupp (word mark)

Class 01: Chemicals used in industry; chemicals for producing metals and their alloys; manures; foundry sand, foundry moulding preparations and binding substances; adhesives used in industry.

Class 06: Ores; common metals and their alloys and products made therefrom, included in class 6, namely unwrought and semi-wrought common metals and their alloys and products made therefrom, in particular rods, panels, bands, sheets and plates, in particular tailored blanks, pipes and fittings therefor, tinplate and blackplate, sleepers, rails and other track parts for railbound vehicles, in particular side guide rails and glide strips for magnetic suspension trains, special and specialty profiles; timber, plank and trench sheeting, sheet piling, light sections, sheet pile crossbeams and fittings, flood sheet piling, box sheet piling, steel poles, staves, flat panel and shipbuilding profiles; flat products of stainless steel (corrosion-resistant, acid-resistant, heat-resistant), nickel-based materials, titanium and titanium alloys, magnetic materials (electrical sheets), work platforms, temporary bridges, and scaffolding and falsework and parts therefor, namely formwork, props, beams, wires and ropes, and wire mesh and other wire products, sheet metal goods, weld filler materials, in particular soldering wire, welding rods, and cored wires, cast, pressed, drawn or machined mouldings, in particular rings, sprockets, toothed wheels, worm wheel sets, industrial gear units, in particular extruder gears, storage and transport containers, prefabricated and collapsible transportable buildings and parts therefor, in particular container offices and workshops, houses, halls, garages, bridges, windows, doors, gates, and roof, ceiling and wall construction elements, cast parts of metal, soldering materials, namely soldering wire, rods of metal for brazing, goods of common metal not included in other classes, namely containers, construction fittings, roof panels, facade panels, springs, windows, windowsills, window frames, dies, fabrics, grilles, hooks, cramps, bearings, supports for propping up ships, runners, nails, profiles, space trusses, rings, loops, locks, screws, silos, pins, gate and door frames, gates and doors, supporting structures, staircases, door panels, door handles, screw-connection parts, wall panels, brackets, fences and parts therefor, fittings for the aforesaid goods, included in class 6, metal building materials, in particular prefabricated sandwich components consisting predominantly of sheet metal for industrial, hall and housing construction, ironmongery, small items of metal hardware, pipes and tubes of metal; non-electric cables and wires of common metal, transportable buildings of metal, metal building materials, scaffolding, included in class 6 and shuttering and parts therefor of metal for concrete, rails and railway points of metal, railway material of metal, fixtures of metal for guiding and gripping rail vehicles, being parts for railway rails.

Class 07: Drives for machines; transmission shafts, other than for land vehicles; construction machines; mechanical apparatus and mechanical devices and equipment consisting thereof for manufacturing precursors or products for the medicines and food industry, chemical industry, manures industry, plastics industry and cosmetics industry, including fittings for the aforesaid equipment; mechanical synthetic gasifiers, other than gasifiers for motor vehicles; machines for the food industry, including fittings; installations consisting of machines for the chemical industry for reforming steam, including fittings; installations consisting of machines for the chemical industry for producing manures, including fittings; gas treatment machines, including fittings; compressors (machines); pressure intensifiers; fluid treatment machines, including fittings; machines for the textile industry; fittings for engine boilers; lifts, included in class 7, mechanical escalators and moving walkways, platform lifts, lifting platforms for people, passenger bridges, moving staircases, stair lifts; parts for lifts, escalators, moving walkways, platform lifts, lifting platforms for people, passenger bridges (machines), moving staircases, stair lifts, included in class 7; fluidisers, namely apparatus for fluidising bulk material using gas flows to promote flow properties, including fittings; generators for generating energy to drive machines; machines for obtaining energy; electric generators; industrial robots (machines); machines for processing metal, wood and plastics; machine tools; drilling machines and parts therefor; machines for positioning, aligning and holding components; machine-driven elevating apparatus and machines for lifting goods; machines for securing, obtaining, processing and breaking off mineral substances, earth, stone, excavated material, used materials, ores, scree and masonry; machines for loading bulk material and piece goods; machines for producing mortar and concrete, and prefabricated parts made therefrom; excavators; conveying machines; machines for handling molten metals; electric and laser welding apparatus; welding electrodes; flaming machines; gas-operated cutting blow pipes; mixers (machines); mills (machines); presses (machines); pumps (machines), including fittings; electric beaters; motors and engines and parts therefor, other than for land vehicles; turbines and parts therefor, other than for land vehicles; gear boxes and parts therefor, other than for land vehicles; gate drives; tools (parts of machines); piston rods (parts of machines); bearings (parts of machines); centrifuges (machines); railroad constructing machines; drums (parts of machines); electric starter apparatus for motors and engines; electric cold-start systems for motors and engines; ship and aeroplane engines and parts therefor.

Class 12: Vehicles, apparatus for locomotion by land, air or water; parts for vehicles and apparatus for locomotion by land, air or water, included in class 12; bodies of metal for vehicles and apparatus for locomotion by land, air or water; engines for land vehicles; parts for vehicle motors and engines.

Class 40: Treatment of materials, namely processing of workpieces, production of profiles, production of slit coils, cutting of sheets and plates of metal, boards or trapezoids, curing of materials and surface finishing, in particular by means of hot dip galvanising, hot dip aluminising, zinc plating or organic coating; custom manufacture of bodies for vehicles, chassis parts, components for vehicle undercarriages and components for vehicle drives, in particular internal combustion engines, for others; toolmaking in the form of custom manufacture, for others; waste, waste water and pollutant treatment, recycling of waste, waste water, scrap and trash; print shops, namely printing; locksmiths (metal treating); carpentry (woodworking).

Class 42: Architecture; town planning; structural engineering; mining engineering; chemistry services; information technology (IT) services; engineering; interior architecture or design; media consultancy, namely technical consultancy in the field of press and public relations; physics (research); software programming; architectural statics or structural engineering (construction planning); technical drawing; land surveying, included in class 42; research; material testing; technical consultancy in the field of computing; installation and maintenance of computer software; rental of data processing installations and computers; construction of prototypes for research purposes and for technical product development; technical analysis of IT infrastructures; technical design and technical planning of installations and apparatus for telecommunications; contaminated site management, namely technical design of property decontamination projects; computer rental.

In accordance with Rule 19 and section 51 of the Trade Marks Act, 2013 any person may, within three months of the publication of the application for registration of the trade mark give notice in duplicate to the registrar indicating opposition to the registration of the Trade Mark to which the application relates.
